## SEABORN BY CHRIS HOWARD

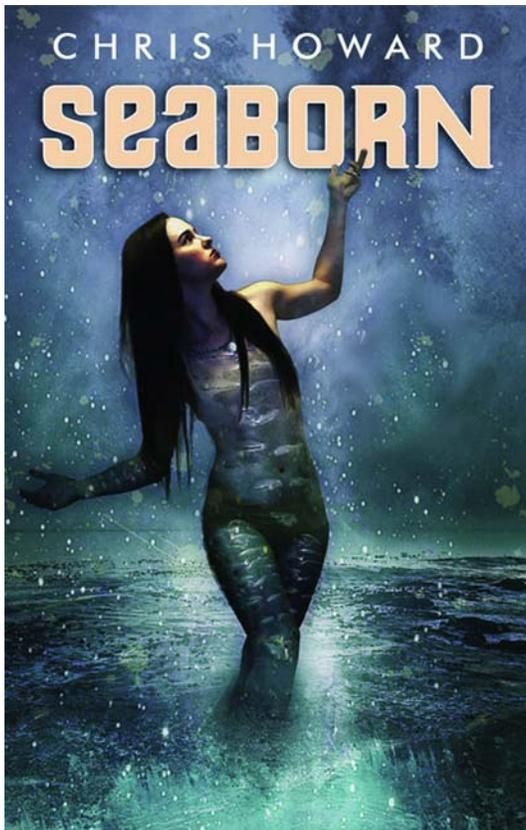

There is a world deep in the Atlantic, a kingdom that has endured thousands of years without anyone on the surface – in the modern world – knowing it exists.

Kassandra is the Seaborn king's granddaughter – the one he wished he'd killed when he'd had the chance. Kassandra's spent her entire life in exile on the surface, struggling to control frightening powers she barely understands – powers she has already used to defeat the king's warriors when she was still a teenager. Now she's ready to declare war.

Corina Lairsey is a California college student who has just freed herself from one controlling relationship when she finds herself in another. Only this time, Aleximor, an ancient Seaborn sorcerer, is literally inside her head, and wearing her body. Corina must strive for control of herself, fighting against time as Aleximor trades pieces of her life away in exchange for power over the path between the worlds of the living and the dead.

*"Seaborn will leave you spellbound."*

– Adele Griffin, author of *where I want to be*,  
National Book Award Finalist

“From the first page of *Seaborn*, you are immersed. Chris Howard navigates a wild ride through a brilliantly edgy and richly atmospheric alter-world. Here is a fresh, formidable spin on the fantasy genre, and Howard is a talent to watch out for. *Seaborn* will leave you spellbound.”

“A fascinating read” ★★★★★

– **Romantic Times**

“*Seaborn* is the first novel for Chris Howard, and what an amazing tale it is. . . This is a book I’d recommend to fantasy readers, but horror fans should enjoy Aleximor and Corina’s tale as well. ”
